

Adopt-A-Garden - in your community

Following on from the successful Adopt-A-Garden model, piloted on the Isle of Wight, many local communities now want a scheme of their own.

The challenge for many groups and parish councils is just how can they set up such a scheme? Issues such funding and safety have to be addressed.

Funding is potentially available from the National Lottery and other bodies and CRB (police) checks are free for people taking part in community projects, such as Adopt-A-Garden.

The Footprint Trust, who set up Adopt-A-Garden, has *three support packages* on offer to help groups form and run their own local Adopt-A-Garden scheme. This support and guidance service covers a two-year period, a licence to use the logo, forms etc, along with email and phone contact.

The support packages, detailed overleaf, can be tailored to suit your organisation or needs. The costs are calculated on the estimated time it will take Footprint Trust staff to support your project. The Footprint Trust is a registered charity and thus does not seek to profit from its activities. We receive no funding to set up Adopt-A-Garden schemes in other parts of the country, thus we have to ask for our costs to be covered.

We hope you will agree that the level of support we are offering will be of help in setting up your local scheme. Please be assured that we will continue to offer free guidance after the two year period, should you require it.

Please do get in touch with any further queries you may have by phone 01983 82-22-82 or email don@footprint-trust.co.uk
